

### ► A humble beginning

- \* Free supplementary classes for the rural underprivileged kids from August 1992 to April 2004 & conceptualization of alternative education system.
- \* Starting of 'Kaliyuva Mane' in June 2005 in a hut with fourteen children.

### ► Nature as a teacher

- \* Solar school
- \* Dairy & a bio gas plant
- \* Astra stove for cooking
- \* Rain water harvesting
- \* An eco-toilet
- \* Organically grown trees & plants
- \* Use of eco chip boards for doors & windows
- \* Recycling of waste water

It's better to build children than to repair adults

Our education system works on the assumption that all children are like machines who can learn a predetermined textual content in a predetermined time in a predetermined way.

#### BUT THE TRUTH IS:

Children have varied emotions,  
Varied learning abilities &  
Varied learning interests

**KALIYUVA MANE**

A free co-educational / residential  
alternative school

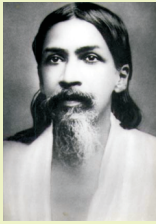

- ☒ Children for **SCHOOL**
- ☒ School for **CHILDREN**

Kaliyuva Mane  
derives inspiration  
from the ideals of  
Sri Aurobindo &  
Swami Vivekananda.

- \* Kitchen & dining area
- \* Outreach vehicle
- \* 3 phase 15KVA generator
- \* Kids' Bank & Kids' court

## UNIQUE FEATURES OF KALIYUVA MANE EDUCATION SYSTEM

### Admission round the year:

There is no fixed period for a child to fall into difficult situations or for a dropout to regain the lost interest for studies.

### Emotional environment:

Happy minds learn faster. Love, Care & Empathy are the ingredients which create a happy mind. Children get plenty of attention from teachers here. Children get all the basic needs including food & prompt healthcare.

### Curriculum:

A child need not attend classes immediately after joining the school. Sufficient time is given to build rapport with the school. Later, an informal academic assessment of the child is done. Based on this, curriculum for that child is fixed.

### Abolition of grades:

Children are not divided into rigid grades such as 1st std., 2nd std etc. Instead flexible teams are formed based on the knowledge, age and emotional acceptability of the children. Meaningful names are given. Team names are often changed. Movement of children from one team to another is highly individualistic.

### Text books & Reference books:

For 10th standard team, Karnataka State Board text books are considered. For all other teams, CBSE books, Resources developed by Kaliyuva Mane, Teaching aids developed by other publishers, Material available on internet etc. are referred along with Karnataka State Board text books.

### Language studies:

- \* Core subjects are taught in both the languages to all the children.
- \* Children take 10th standard examinations in English medium with Kannada as 1st language, English as 2nd language & Samskrutha as 3rd language.

### Evaluation:

No term or annual examinations till 10th std. board exams. The purpose of exams is to assess the child's learning, revise the curriculum and devise new methods of teaching. This is easily being achieved by regular informal oral & written tests.

### 10th std. Exam results:

- \* Since 2010, 49 children have appeared for this coveted exam. 47 have cleared. Out of 6 dyslexic children, 3 have passed.
- \* 16 children have cleared the exams, scoring more than 60% marks.
- \* Some are continuing their studies. Some are already in jobs.

### Registrations:

- \* Kaliyuva Mane is registered with Department of Women & Child development, Govt. of Karnataka as a 'Children home.'
- \* DDPI has sent our proposal for approval to the Commissioner - DPI, Bengaluru. [as a 'special school'] (23-06-2014)
- \* Hon'ble minister for Primary & Secondary education has instructed the Commissioner to take necessary steps to grant approval. (26-02-2015)
- \* Currently children are appearing for 10th std. Public examinations, through another recognized school, based on the letter written to us by the then BEO on 3-12-2004 on the subject "Non-formal learning centre."
